

men under the sea

a selected
list of books
for young adults

Challenge of the Seven Seas **Claiborne Pell**

Engineers and scientists are already penetrating earth's oldest frontier, the oceans, and preparing for the day when vacationers will stay in underwater motels and sea-farmers will harvest ocean crops. NF

The Complete Manual of Skin Diving **Alton P. Balder**

As essential as your diving gear is expert advice on all aspects of diving including basic equipment, safety rules, diving techniques, and underwater photography. NF

The Deepest Days **Robert Stenuit**

In the longest, deepest plunge ever made by man, two divers for Project Man in Sea lived in a tent, submerged at 432 feet, for two days. NF

Exploring the Ocean Depths **Edward H. Shenton**

Using Jacques Cousteau's Diving Saucer, marine scientists explore the ocean floor along a thousand-mile stretch of the California-Mexico coastline. NF

Farming the Sea **Alexander McKee**

With careful exploration and cultivation the vast, as yet unknown, undersea regions may become a source of abundant food and minerals for mankind. NF

Finders Losers; The Lucayan Treasure Find
Jack Slack

Four young skin divers found a three-million-dollar treasure in a sunken galleon, and they were sorry. NF

Frontiers of the Sea **Robert C. Cowen**

An expert tells of a century of oceanographic exploration from a description of England's pioneer *Challenger* to discussions about man's future use of the oceans. NF

Harvest of the Sea **John E. Bardach**

A scientist discusses how the survival of the human race depends on wise use of under-sea resources. NF

Hydrospace **Martin Caidin**

Sea-probing vessels and sophisticated instruments aid man in his study of the topography and inhabitants of hydrospace. NF

The Living Sea **Jacques Y. Cousteau**

A giant grouper, sharks with shovel snouts, and a ship that sank in the third century B.C. are only a few of the phenomena Captain Cousteau finds beneath the waves of the seven seas. NF

The Living World of the Sea **William J. Cromie**

Tomorrow, seaweed transformed into tasty snacks and oceans colonized by men with artificial gills may be commonplace. NF

Men in the Sea **Peter Briggs**

How can man live and work under water? Can whales be trained to herd shrimp? Nine men who are "inventing the future" answer these and other questions about man and the oceans. NF

Men Under Water **James Dugan, ed.**

Smash through three feet of ice beneath the North Pole aboard the nuclear submarine *Sargo*, join underwater photographers and scientists as they rove the depths of the world's oceans. NF

The Ocean World **Vladimir Kovalik**

Utilizing satellites and nuclear physics, combining marine biology and archeology, oceanographers explore the last frontier on earth. NF

The Rescuer **Peter Maas**

The submarine *Squalus* lay 243 feet down on the North Atlantic floor and, in May, 1939, only Lieutenant Commander Swede Momsen knew enough about underwater escape to attempt a rescue. NF

Riches of the Sea

Norman V. Carlisle

Scientific fish farming, searching beneath the ocean for oil, gold, and diamonds, and de-salting sea water are some of the projects already expanding man's use of the oceans. NF

Saucer in the Sea

Terry Shannon

Down into murky, unknown Pacific waters aboard the Cousteau diving saucer. NF

Seawatchers; Oceanographers in Action

William Bixby

On Cruise 58 of the Research Vessel Chain, a sea-going laboratory of the Woods Hole Oceanographic Institution, scientists explore the sea from its microscopic life forms to its abyssal depths. NF

The Silent World

Jacques Y. Cousteau

With aqualung allowing them to penetrate unvisited depths, these undersea explorers returned with extraordinary pictures of ocean life. NF

Treasure at Twenty Fathoms

Leonard P.O. Wibberley

The treasure was a sunken airplane off Palos Verdes; the hunter was Chuck Crawford, shockproof, sharkproof scuba diver. F

**Undersea Explorer, The Story of Captain
Cousteau** **James Dugan**

Sea monsters and skeleton ships offer endless thrills to the great French diver. NF

Undersea Vehicles and Habitats **Frank X. Ross**

New devices such as diving chambers and manned ocean-floor stations are making possible extensive exploration of the ocean depths. NF

The Underwater World **Jim Thorne**

An experienced aquanaut takes you aboard the Navy's Sealab III, guides you on an expedition which discovers a submerged city, and describes a unique dolphin experiment. NF
